Senior SDET with 4.5 years of experience specializing in automation framework architecture, CI/CD ownership, and observability-driven testing, delivering measurable business impact across UI, API, and performance testing.

Technical Skills

Automation Frameworks: Playwright, Selenium, TestNG, Robot Framework

Programming & Scripting: TypeScript, JavaScript, Java

API & Performance Testing: Playwright, K6, Postman, JMeter

Observability & Messaging: Grafana, Prometheus, Loki, Splunk, Application Insights, RabbitMQ

CI/CD & DevOps: Microsoft Azure, GitHub Actions, Git, Docker

AI & Productivity Tools: GitHub Copilot, MCP Server (Playwright)

Databases: SQL, MongoDB

Project Management Tools: JIRA, Azure Boards

Methodologies: Agile, Scrum

Work Experience

➤ **Dentsu Global Services - Senior Analyst (SDET)** November 2025 - Present

Client: LeShuttle - EuroTunnel

- **Test Automation:** Leading Playwright automation framework development for LeShuttle's booking system, establishing test architecture patterns for cross-channel testing (web, mobile, kiosk)
- **Performance and observability:** Architecting K6 performance testing framework with Grafana observability.

➤ **LTIMindtree - Senior QA Automation Engineer** August 2021 - November 2025

Client: Nexi | Nets (E-Commerce/ Fintech)

- **Framework Creation:** Architected multiple Playwright automation frameworks from scratch, reducing test execution time by 30% and integrating seamlessly with CI/CD pipelines.
 - **Framework Maintenance:** Maintained and optimized existing automation frameworks in Java (Selenium) and Robot Framework, ensuring scalability, stability, and reusability.
 - **CI/CD Pipeline Ownership:** Designed and deployed robust test pipelines in Azure DevOps, improving release reliability by 47%.
 - **Onsite Collaboration (Denmark & Norway):** Partnered with business stakeholders to enhance automation frameworks and align testing across 3 key modules, achieving 30% faster execution.
 - **API & Performance Automation:** Automated 40+ API tests using Playwright (TypeScript) and performance tests using K6 (JavaScript), fully integrated into Azure CI/CD for continuous validation.
 - **End-to-End Testing:** Designed end-to-end test suite covering 60+ critical user journeys across payment gateway integrations, **catching 23 production-critical defects** in staging, saving estimated €200K+ in fraud/downtime costs.
 - **Team Leadership:** Mentored a team of 3 engineers, promoting Playwright best practices and improving overall automation quality.
-

Personal Projects

- **Sauce Labs Automation** | *Playwright, Typescript, GitHub Actions Pipeline* [Live Dashboard](#) [GitHub](#)
Built a Playwright automation framework and Integrated CI/ CD with GitHub Actions, including HTML reports.
 - **K6 + Grafana/Prometheus Monitoring** | *K6 , OpenTelemetry, Prometheus, Grafana* [GitHub](#)
A complete performance testing and monitoring solution using K6, Prometheus, Grafana, and OpenTelemetry Collector.
 - **API Automation - E Commerce** | *Playwright, GitHub Actions, Custom Report* [Live Dashboard](#) [GitHub](#)
Implemented robust REST API test framework, automated HTML/JSON reporting with GitHub Actions.
 - **Grafana K6 Performance Test – Rest API** | *JavaScript, K6 , GitHub Actions* [Live Dashboard](#) [GitHub](#)
Created a performance, load, stress testing framework using K6 and JavaScript, integrated with GitHub Actions CI/CD.
-

Education

Institute Of Engineering and Technology - DAVV

June 2017 – June 2021

Bachelor of Engineering - CGPA: 7.19

Indore, Madhya Pradesh, India

Certifications

- Microsoft Azure: AZ-900 (May 2023) - [View Credentials](#)
- ISTQB: Certified Foundation Level Tester (Nov 2023) - [View Credentials](#)
- Google: Cloud Digital Leader (Sep 2023) - [View Credentials](#)
